Subject: [External] Reject Dominion Energy's Proposed Net meter tariff

To Whom It May Concern:

My name is Carolyn Miller and I am a South Carolina Resident in North Augusta (29860).

I am asking the PSC to reject Dominion Energy's Proposed service charge increase and solar subscription fee proposals. Rather than making renewable energy more affordable for all people, Dominion Energy is trying to price people out of the market and make solar too costly for the common people of SC.

The proposed charges include raising solar customers' basic service charge to \$19.50/month. (Non-solar customers pay \$9/month.) The utility has also proposed a "solar subscription fee," which would add a monthly cost of \$5.40/kW. The charge would cost the average solar customer around \$43 per month. Combined, the combined annual charges will be more than \$750.

I urge the PSC to reject any anti-renewable proposal from Dominion Energy.

I trust that the PSC will continue to protect our consumer choice, energy market competition, and cleaner, more affordable energy for everyone.

Thank you for your consideration,

Michael and Carolyn Miller

North Augusta, SC 29860
